**Reference Patent Application #10/811,382
Filing Date 03/27/2004
Title of invention Perpetual Motion Fan Module**

Dear Commissioner:

Please be advised that the present application has been amended to include an alternate embodiment, illustrated by FIG. 1B. The said modification is to include three processors (P1, P2, P3) instead of the one shown in FIG. 1A, as 72. Accordingly new specification pages 26 & 27 are added to explain the alternate embodiment, illustrated in FIG. 1B. In addition page 12, brief description of the drawings, was modified to include FIG. 1B.

Accordingly two new wires 517 & 518 were added to page 25, for the drawing reference numbers. As result of said modifications, the abstract page number was changed to 28.

The drawing sheets were re-numbered to show a total of 3-sheets, instead of the original 2-sheets. Please incorporate the enclosed modified pages and drawing sheets to the original application, and please disregard the old ones. No changes were made to the original application, except the addition of said enclosed alternate embodiment. Thank you kindly for your cooperation in this matter.

Very truly yours

Rudolph V. Bailey Sr.
